**Not in a PRICE Class  
but in a VALUE Class**

**McLAUGHLIN-BUICK** stands alone—not in its price, which it shares with others—but in its **VALUE**, which it shares with none.

During the past nine years the public of this continent has invested more of its automobile dollars in McLaughlin-Buick than in any other make of gear-shift car.

And McLaughlin-Buick, true to its purpose and promise, has constantly striven to improve its quality—to better its value. The economies effected through McLaughlin-Buick's volume of sales have been utilized to enrich still further the quality of the car—by such improvements as the Sealed Chassis, the Torque Tube Drive, Mechanical Four-Wheel Brakes, an Engine Vibrationless Beyond Belief and the increased luxury and refinement of McLaughlin-Buick Fishier Bodies.

McLaughlin-Buick is today, as always, the **ONLY** car in its value-class.

## Clareholm Local News

J. W. Morrow has resigned from the town council.

Mrs. Ivan Davis is a patient in the local hospital.

Mrs. O. C. Arnestad is a patient in the local hospital.

The Rifle Association will go to the ranges on Wednesday, May 18th.

Douglas Mitchell was able to return to his home from the local hospital on May 6th.

Poles are being unloaded from the cars here for the Calgary Power Company's line.

The quilt put up by Clareholm Local of the U.F.W.A. was won by Mrs. Clarence Carney.

The Demonstration Farm had the misfortune to lose a pure bred, Clydesdale mare by death on Monday evening.

Born at Clareholm hospital, on May 7, to Mr. and Mrs. Hubert Church, of Stavely, a daughter.

Born at Clareholm hospital, on May 10, to Mr. and Mrs. C. A. O'Neil, of Woodhouse, a daughter.

Mrs. Peet met with a very painful accident on Monday when the fingers of her right hand were caught in an electric washing machine.

Sylvia Hillerud is teaching school this week in place of Mrs. O. C. Arnestad who was supplying for Miss McWilliams during her illness.

Mrs. Tim Chilton will hold an afternoon tea at her home Friday, May 20th, from 2:30 till 5 o'clock. This tea is in aid of the Star Line Women's Institute. Everybody welcome.

Mrs. Thers, mother of Mrs. Crompty, had the misfortune to fall down stairs, on Monday. She was considerably lamed and shaken up, but fortunately no bones were broken.

There will be two baseball games here on the 14th of May. Clareholm vs. Stavely, and a junior game, Clareholm vs. Glenora. There will be a dance in the Odd Fellows' hall at night.

A number of Charley Gordon's fellow lodge members dropped in on the newly-weds Monday evening with a choice program of clarivari music. They were invited in and royally entertained.

W. C. Field's "So's Your Old Man," from Julian Street's story, "Mr. Bishop's Princess," winner of the O. Henry memorial prize for best short story in 1925; at the Rex theater Friday and Saturday nights this week.

John F. Miller, eye sight specialist, of 404 Underwood Block, Calgary, will be at Queen's Hotel in Clareholm on Friday, May 20, for the purpose of correcting your and your children's eyes. Do not miss this opportunity.

A two days horse racing program has been arranged for the 15th annual carnival in Italy. There will be seven races on Friday, and eight races on the 16th. The Clareholm Derby is on the program for the second day. There will be relay, cowboy and novelty races both days. Good purses are offered.

Two pianoforte recitals will be given by the pupils of Vm. G. Moffatt on Monday and Tuesday, May 16th and 17th. Both recitals will be held in the United church, commencing at 8 o'clock sharp.

A third-mental will be held in September, at which pupils unable to take part in the May recitals will be allowed to perform.

Taking into account the stormy weather, there was an extra good turnout of local Odd Fellows at the anniversary service held in the United church on last Sunday evening. The bad weather prevented the members of neighboring lodges from attending as they had planned. Rev. E. W. Dalglish preached an excellent sermon, reading for his text the story of the Samaritan. Special music and anthems by the choir.

## WEED CONFERENCE AT CLARESHOLM

A weed conference will be held at the School of Agriculture on May 17-18, with the following program, starting at 9 a.m.

**May 17**  
9 to 9:15—Address, S. H. Gandler, Principal.

9:15 to 10:30—"Weed Legislation," W. J. Stephen.

10:30 to 10:45—Discussion 11 to 12—"Organization," J. M. McEwen.

12 to 12:15—Discussion 12:15—Adjourn.

1:30 to 2—Address, H. A. Craig, Deputy Minister of Agriculture.

2 to 2:45—"Weed Control and Eradication in Irrigation Ditches," G. A. Ingram.

2:45 to 3—Discussion led by O. R. Young.

3:10 to 5:30—"Identification of Weeds," Messrs. S. H. Gandler and E. G. Bayfield.

8—Moving pictures of weeds and other agricultural subjects.

**May 18**  
9 to 9:30—Address, Hon. Geo. Hoadley, Minister of Agriculture.

9:30 to 10:15—Experimental Work Conducted by Schools of Agriculture," O. S. Longman.

10:20 to 11:15—"Control and Eradication of Perennials with Particular Reference to Perennial Saw Thistle," O. R. Young.

11:15 to 11:30—Discussion led by G. A. Ingram.

11:30 to 12:30—"Crop Rotations," W. M. Cockburn.

12:30—Adjourn.

1:30 to 2:30—"Control and Eradication of Annuals and Winter Annuals," L. E. Kindt.

2:30 to 2:45—Discussion led by J. M. McEwen.

3 to 3:45—"Dry Farming Problems," M. L. Freng.

3:45 to 4—Discussion.

5 to 5—"Wheat Stem Saw Fly," Prof. E. H. Strickland.

5:30—Discussion.

## NEW W. I. BRANCH

Mrs. Mulholland, constituency convener for the Clareholm-Medoc constituency, met with the ladies west of town on May 5th, at the home of Mrs. A. Wamnamaker, and organized a branch of the Women's Institute which will be known as the Willow Creek branch, with the following officers:

President, Mrs. S. Solberg; vice president, Mrs. Johnson; secretary-treasurer, Mrs. A. Strangways; directors, Mrs. D. Reynolds, Mrs. F. Smith, and Mrs. R. Wilkie.

Conveners of the various committees of the Institute are as follows:

Child welfare and public health, Mrs. W. Hart; education and better schools, Mrs. W. Long; home economics, Mrs. H. Brunner; agriculture, Mrs. F. Smith; immigration, Mrs. S. Schumacher; Canadianization and national events, Mrs. V. Wilkie; publicity, Mrs. A. Strangways.

This branch will try and meet twice a month on Tuesdays, only, being a business meeting and the other a social one.

The aim will be for the betterment of the community, and jolly good times.

After the meeting was adjourned daily refreshments were served by the hostesses, and a pleasant afternoon was enjoyed by all.

Tornadoes in eight states during the week end claimed a total of nearly 300 dead and fully 1000 injured, with property loss running into hundreds of thousands of dollars. Missouri and Arkansas are the heaviest losers, with the known death tolls 95 and 68 respectively. Other states reporting loss of life are Texas, Illinois, Kansas, Louisiana, Wisconsin and Iowa.

Weather cleared last Sunday night, and since then seedling conditions have been favorable here. This week will practically finish wheat seeding in this district.

119. What Is the Welland Canal?

Correct answers given next week. Give how many you can answer by that time.

## ANSWERS TO LAST WEEK'S QUESTIONS

106. What Is a Molecule?

An element cannot be changed to anything different from itself, as lead, copper, gold, hydrogen, oxygen. So far as known, everything in the Universe consists of about 90 of these basic elements, either singly or in compounds. Some 250,000 combinations are possible. The smallest indivisible particle of an element that enters into a compound is the atom. Water is a compound. Two atoms of hydrogen unite with one atom of oxygen to produce one molecule of water. The smallest particle that can exist and still be water is the molecule. Go beyond the molecule and you produce a chemical change, that is, break up the molecule and form a new one—a different substance. Those changes are taking place within and about us every moment.

107. How Do Sunlight and Plant Leaves Produce the World's Food?

Water and mineral elements absorbed by the roots are carried to the leaves, carbon dioxide is absorbed from the air. The leaf is a complicated laboratory that uses the energy of sunlight for chemically breaking down the molecules of water and dioxide and the reuniting of their free atoms into the new compound, the simple molecule of starch. This product, in soluble form, is carried to every part of the plant as food and as animal and vegetable plants it feeds the world. In this starch-making process oxygen is left over, and passes into the air as free oxygen. This, together with the absorption of carbon dioxide, purifies the air for animal use. If it were not for this, all animal life would eventually suffocate.

108. How Does a Tree Grow?

A tree does not grow in height by lengthening of trunk and limbs. The measurement of its new shoots indicates its growth, as only these are alive and capable of lengthening by cell division. The food prepared by the leaves of the tree is carried in soluble form to the cells of the cambium, the active, growing part of the tree which lies just beneath the bark. The cells of the cambium multiply by enlarging and then dividing, and constitute the tree's annual growth in girth. Beneath the cambium the sap wood conveys the crude sap upward. The rings of sap wood gradually harden and become a part of the heart, or solid part of the tree.

109. How to Tell the Age of a Tree?

The only complete record of a tree's life is the rings of growth that show on the stem—usually one for each year. It is not necessary to cut down a tree to measure its rings. A special drill obtains a horizontal core of the wood suitable for measurement.

and a device measures and records the width of the rings. The oldest trees examined in this way are some of the great Sequoias (Big Trees) of California, ranging in age from 700 to 3,200 years.

110. What Animals "Chew the Cud"?

Nine-tenths of the hooved animals belong to the ruminants. The peculiar complexity of the stomach enables them to "chew the cud." They include the cattle, sheep, goats, antelope, giraffe, deer, camels and many others. A cow, for example, has four stomachs. The first one is large and receives all the bulky food, as hay and grass and ensilage, as it comes from the mouth unchewed. The second one receives the liquids only, and small detached portions of food passed to it from the first stomach, which it rolls into a ball that can be raised easily through the swallow as a cud. After the food is chewed it passes to the third stomach. Digestion proper begins in the third stomach and is completed in the fourth.

111. What Protection Does "Cud Chewing" Afford the Ruminants?

As the ruminant animals are poorly equipped for combat with the fierce, carnivorous animals of the jungle, in their natural environment the advantage of "chewing the cud" is very considerable. They are able to procure their food hastily, and can retire to a place of safety for the necessary mastication. Their limbs and eyes are highly specialized for both speed and endurance, and constitute their principal means of protection.

112. Why Does a Cow Get Up at Midnight and Lie Down on the Other Side?

A cow's first stomach, heart and principal blood vessels are on the left side. If a cow should lie on her left side, where her stomach were full, it would interfere with raising the cud, and also with heart action and blood circulation. A cow, with good health and a full stomach usually lies down on her right side. After she has finished chewing her cud and emptied her first stomach (about midnight), digestion can proceed on her left side, after which she sleeps.

Wednesday next, May 18th, will be the first half holiday of the season in Claresholm.

## Here and There

Passengers aboard the Canadian Pacific Express of yesterday were not denied of visiting China on a round-trip tour of the Orient. The ship, on account of the recent trouble in that country, was not to leave the coast until the 15th of May. The ship, however, was delayed by a storm, and it was not until the 18th that the ship was able to leave.

A new Canadian ship, the "Huron," has made its appearance. It is a cross between a battleship and a cruiser, and is the first of its kind. It is a cross between a battleship and a cruiser, and is the first of its kind. It is a cross between a battleship and a cruiser, and is the first of its kind.

His Majesty King George and Her Majesty the Princess of Wales have left the British section of the World's Peace Conference that they intend to exhibit beauty at the Ottawa exhibition to be held in Ottawa from July 27 to August 4. There is also a possibility of the King and Queen of the Netherlands and King of Spain sending exhibits, in which case the Canadian exhibit will be the first city in the world privileged to house the exhibits of several royal families.

For the second time in three weeks the stock has paid a visit to the Canadian Pacific passenger train. Yesterday on the Imperial Limited, east from Vancouver, Mrs. G. G. Malakoff, B.C., gave birth to a son between Malakoff and Revelstoke. Mrs. G. G. Malakoff was at the time to the Revelstoke hospital. Railway officials and employees did all in their power to render assistance. Telegraphic dispatches from the hospital state that both mother and son are doing well.

## Here and There

From the year 1910 to 1925 there was an increase of \$1,203,722.00 in the total taxable value of realty in Alberta, according to the Dominion Bureau of Statistics. The increase in the latter year was \$7,351,765.00.

The maple syrup production of the Province of Quebec will be in the neighborhood of 20,000,000 gallons. It has been officially estimated, this being an average output. The season has been much more advanced than in former years.

The pulp newsprint mill of the New Brunswick International Paper Co., Ltd., will be erected in Dalhousie. It is understood, as it is said that satisfactory arrangements resulted at the conference between representatives of the company and the town council.

A school will be established at the Vancouver Shore of the Canadian Pacific Railway for the purpose of instructing the apprentices in mathematics and drawing. It was announced recently by A. Starck, assistant superintendent of motive power, western lines.

"Merry Sunshine," an eight year old bull cow, bred and owned by Brown Brothers, of Keweenaw, has recently completed a thirty-day tour and established a new Canadian record with 15,157 pounds of milk. The record was made under ordinary farm conditions on a ranch nearly 1,000 feet above sea level, the cow staying out of doors day and night.

A cable from London, England, states: "Following the meeting of the method for the production of artificial wool from nine miles of Italian and German scientists, a British financial and industrial corporation is in touch with Quebec Provincial Agents Office at Quebec, Canada, investigating the possibility of establishing a new industry in Quebec Province."

A great future for tobacco growing in Western Ontario is predicted by the Hon. J. S. Martin, Minister of Agriculture, who states that counties engaged in this industry have demonstrated that they can grow as fine tobacco leaf as Kentucky or Virginia. At present, however, he has been engaged to visit new growers and give them all information possible.

Surviving 200 Norwegian settlers, including wives and children, from the districts of Nordre, Heddal and Valders sections of Norway, Kato Elatso, chief clerk in the Canadian Pacific Railway office at Bergen, saw the settlers off for Winnipeg from the Windsor Station, Montreal, fifty of the party going straight to the coast. Elatso estimates that some 500 persons from the districts named will eventually come to Western Canada.

Via Canadian Pacific Railway recently there was forwarded to His Majesty the Pope an album and photographs of the Canadian Rockies offered by E. W. Beatty, Chairman and President of the system, together with the suggestion of a prominent Canadian citizen who had described the Canadian Rockies as "His Majesty's interview some time ago. A wish for a book showing views of the mountains was expressed by the Pope whose wish was complied to by Mr. Beatty. The album is beautifully bound in white silk.

Canadian illicits now sell soon be used in the manufacture of a new pigment called "Titanium White" (to be used in the same way as white lead) according to E. H. Monk, of Montreal, who states that plans are being completed for the erection of a plant in Montreal and, if everything develops as expected, this plant will be set up in the autumn. The development of the Department of Colonization and Development, Canadian Pacific Railway, has been active in furthering the establishment of this industry.

"For years was badly constipated and troubled with gas after eating. Could not eat fruit and many other things. Adierka had over me good—can now eat anything." (signed) W. H. Fletcher. Adierka removes G.A. and often brings astonishing relief to the stomach. Brings out a surprising amount of old waste matter that may have been in the system. Stops that full bloated feeling and makes you enjoy eating. Excellent for chronic constipation. —Claresholm Pharmacy.

## Here and There

Alberta is now the largest producer of oil and gas in Canada. In 1925 the production of gas amounted to approximately 3,000,000 thousand cubic feet, and the production of oil 183,000 barrels.

Louis Kunt, trade delegate to the Union of Soviet Socialist Republics, confirms the report that an order for \$1,000,000 worth of lumber will be placed with a Vancouver firm. Other large orders for Canada are pending.

During the season of 1926 over 26,000 square miles of mineralized areas in the Dominion were mapped out by means of aerial photography, according to the Department of Natural Resources at Ottawa. This is one of the most important uses to which aerial photography has been adapted.

A bill to establish a fish, game and wild life sanctuary in the interior of Nova Scotia has been passed by the Legislature. The sanctuary is to be located at the interior of the counties of Annapolis, Digby, Yarmouth and Shelburne. Quota Officers may follow in later parts of the province in the near future.

A large single shipment of motor oil, a solid tankload of 28 cars of Marvabine, left Sarnia for various points in the west by motor train. The oil is a Canadian-manufactured product which has been developed during the past year. At Port William the motor train was handed over to the Canadian Pacific Railway for exhibition among its lines.

Announcement of the offer of two scholarships, annually by E. W. Beatty, chairman and president of the Canadian Pacific Railway, and Chancellor of McGill University, to the first male candidate in French and Latin, and to the highest male candidate in mathematics entering the University, was made recently by Sir Arthur Currie, principal of McGill. A prize of \$500 is attached to each scholarship.

According to the department of Colonization and Development of the Canadian Pacific Railway, there is every indication that there will be a great increase in the number of immigrants coming to Canada this year over the past year. It has been estimated that immigration figures for this year will be almost double those of the past year. The first of the present year Canadian Pacific liners have brought to Canada approximately 15,000 new settlers.

E. W. Beatty, chairman and president of the Canadian Pacific Railway, announced from headquarters recently that the name of the new liner to be built at Regina will be "Hond Saskatchewan." The new C.P.R. liner at this time will be a eleven-story structure containing 241 bedrooms and will cost in the neighborhood of \$1,500,000, the opening being scheduled for May 24. The liner is being built at one of the finest shipyards in the city on Victoria Avenue, facing the park. It will be only within a few minutes' walk from the C.P.R. Station.

The Canadian Pacific Railway made an excellent showing in 1926, gross revenue for the twelve months being the best shown since 1920, while net revenue was the best shown since 1917, being nearly \$4,000,000 in excess of the first record of 1925. In gross earnings from railway and mail steamers the company resulted in a very notable increase over the preceding fiscal year, the showing being one of the best on record, while income from other sources, including ocean steamers, held up well, being only slightly below the level of the previous year. The best exhibits were made by the company.

## FOR SALE

Two sets heavy harness, one 14 inch Oliver gang plow, section harrow, two 14 inch sidehill breaker bottoms, 8 inch Manitoba chopper. Apply Alex Hutchinson's blacksmith shop.

## To Members of the Wheat Pool:

Once each year Wheat Pool members are called to choose the men they want to administer the affairs of the Pool for the coming year. To successfully direct a business of this magnitude requires that men of outstanding merit be selected. They must be chosen by the Pool members themselves. It is your job. It is both a privilege and a duty. Don't neglect it!

The system of electing Delegates was changed at our last Annual Meeting. Instead of sending each member a ballot card we are now required to send him a Nominating Paper. You will find this on the back page of the membership list. Full instructions for using it will be found on the inside front cover and on the back page. Note that the nomination of any member must be signed by ten members and the Nominating Paper must be signed in the place provided on the Nominating Paper. All nominations must be returned to Head Office not later than Wednesday, June 15th next.

The first thing is to see that the member you want as your Delegate is duly nominated, then get your Nomination Paper into Head Office before June 15th, then watch for your ballot paper about the first of July. When it reaches you, use it promptly, being careful to follow the instructions which will accompany it.

Alberta Co-operative Wheat Producers Ltd.

Head Office: Loughheed Building, Calgary.

# What do you get for the price you pay?

DEALERS FOR CHEVROLET AND McLAUGHLIN  
**QUALITY & YOKOM**  
Phone 20 CLARESHOLM, ALTA.

VALUE is not a matter of price alone. It is  
usually what you get for the price you pay.  
Chevrolet gives you just that. It is economical because  
it is so cheaply built. It is superior in value  
because it gives more of the things you want  
for the price you pay.  
First and always, steady quality with Chev-  
rolet. There is nothing in the distinctive Fisher  
body styling, the fine, smooth, flowing lines,  
the elegant, deep colors, in the smooth, powerful  
whispering engine, in the secure of ride,  
the ample, such as air, driver, oil filter, ac-  
cessories, in the luxury of its appointments and  
interiors, in the long, quiet, smooth ride  
the most important thing in Chevrolet  
History is the selling of a new and lower price  
the price for which Chevrolet has ever been  
sold in Canada.

**Beautiful Chevrolet**

## UNCLAIMED WAR MEDALS

Information has been received that there are in stock at National  
Defence Headquarters, Ottawa,  
1245 unclaimed 1914-15 stars,  
62,500 Victory Medals, together  
with a number of Distinguished  
Conduct Medals, Military Medals,  
Medals of the Order of the  
British Empire, Meritorious Service  
Medals and French Medals.

The authorities desire to dis-  
pose of these medals, etc., as  
quickly as possible and ex-soldiers  
who have served overseas and  
have not yet received their  
medals or decorations are requested  
to make immediate application  
to the Department of National  
Defence (Director of Rec-  
ords), Ottawa, giving regimental  
number, rank, name and C. E. F.  
unit and present post office ad-  
dress, when the medal or decoration  
will be forwarded.

"For years I had gas on the  
stomach. The first dose of Adler-  
ika helped. I now sleep well and  
all gas is gone. It also helped my  
husband." (signed) Mrs. B.  
Brinkley, ONE spoonful Adler-  
ika removes GAS and often brings  
asthmatic relief to the stomach.  
Stops that full, bloated feeling  
Brings out old waste matter you  
never thought was in your sys-  
tem. Adlerika is wonderful for  
chronic constipation. Clareholm  
Pharmacy.

## Combine Your Wheat IT PAYS BIG

Holt Combined Harvesters have been in successful operation for nearly  
40 years.

Holt Combines are built to stand the Gaff.

Holt Combines last a long time, from 15 to 20 years. Why experiment with  
a NEW make of Combine when you can buy the old Reliable HOLT for **Less  
Money** and on good terms.

Ten Alberta farmers bought HOLT Combines in 1926, and in every case they are  
100% boosters for the **NEW WAY**.

Write us for information about the new swather and pickup—this new equipment will  
take care of the green spots in your field.
